

ZACHARY A. CAVA

PO Box 277 | Bristol, FL 32321 | 610-304-9141 | cava.zachary@gmail.com | www.zacharycava.net

EDUCATION

SUNY Buffalo State, Buffalo, NY
Department of Biology

Master of Arts, August 2016
Cumulative GPA: 3.86/4.00

Thesis: Behavioral differences between native and exotic invertebrate prey affect susceptibility to predation by a native amphibian predator

Ithaca College, Ithaca, NY
Major/Minor: Biology / Environmental Studies

Bachelor of Arts, December 2009
Cumulative GPA: 3.703/4.000 (magna cum laude)

HONORS & AWARDS

Outstanding Master's Thesis Award, SUNY Buffalo State, Buffalo, NY (2017)
V. Ray Frederick Research Grant, SUNY Buffalo State, Buffalo, NY (2015)
HSBC Commit-to-Change Grant, Ithaca College, Ithaca, NY (2009)
Bernard Scholarship, Ithaca College, Ithaca, NY (2008)

EMPLOYMENT & EXPERIENCE

Salamander Technician – FL Fish & Wildlife Conservation Commission, Liberty Co., FL (October 2 2017 – Present; 40 hrs/wk)

- Assist with projects focusing on the conservation of the federally Threatened Frosted Flatwoods Salamander
- Installation and daily monitoring of drift fence arrays (2 encircled wetlands, 142 funnel traps total)
- Process salamanders for mark-recapture
- Conduct time-constrained searches for salamander eggs; document and collect eggs for captive rearing
- Maintain "cattle tank" mesocosms for headstarting larval salamanders
- Perform dipnet surveys for larval salamanders

Project Lead – Tiff Nature Preserve, Buffalo, NY (January 1 2016 – January 31 2016; 40 hrs/wk)

- Prepared feasibility assessment for the enhancement of vernal pool habitats at Tiff Nature Preserve

Authorized Biologist – The Sanberg Group, NV/CA (November 5 2012 – July 15 2014; 50+ hrs/wk)

- Conducted preconstruction surveys for desert tortoise and other sensitive species
- Performed biological compliance monitoring during construction activities
- Supervised biological monitors during construction activities
- Prepared daily field monitoring reports documenting project progress

Volunteer Herpetological Technician – Nevada Department of Wildlife (May 1 2013 – July 15 2014; 20 hrs/wk)

- Tracked group of Gila Monsters via radiotelemetry
- Surveyed for Amargosa Toads (May 2013), Columbia Spotted Frogs (July 2013), and Relict Leopard Frogs (October 2013)

Expedition Member – The Biodiversity Group, Ecuador/Vietnam (February 1–15/August 1–15 2013; 40 hrs/wk)

- Hiked transects in remote tropical rainforests to document herpetofaunal diversity
- Recorded observations and photographs of each reptile and amphibian encountered
- Transported animals to lab for processing
- Classified specimens; collected morphometric data and tissue samples

Telemetry Technician – Great Basin Institute, Las Vegas, NV (March 1 – May 31 2012; May 1 – 31 2014; 40+ hrs/wk)

- Tracked group of tortoises in continuous circuit throughout the day using radiotelemetry
- Collected data on tortoise activity patterns for use in analysis of Line Distance Sampling results

Biological Science Technician (GS-0404-06) – U.S. Geological Survey/Western Ecological Research Center, Las Vegas Field Station, Henderson, NV (January 1 2011 – February 15 2012; 40+ hrs/wk)

- Tracked telemetered tortoises and gathered data for a large-scale translocation project
- Characterized habitats utilized by tortoises; identified relevant flora, microclimatic conditions, etc.
- Affixed, removed, and repaired radio transmitters, floy tags, and temperature loggers
- Conducted tortoise health assessments, including tissue sampling, rehydration, and X-rays
- Surveyed transects for unmarked tortoises and signs of canid/lagomorph presence
- Excavated tortoise nests and collected eggs for incubation
- Supervised and trained up to eight seasonal workers

Herpetological Intern – U.S. Fish & Wildlife Service/Eastern Massachusetts National Wildlife Refuge Complex, Sudbury, MA (April 1 – November 1 2010; 40 hrs/wk)

- Participated in research and management of several populations of threatened turtles
- Tracked telemetered turtles; mapped locations and movements with GPS and GIS
- Monitored nesting activity, excavated nests, installed predator exclosures, collected hatchlings
- Characterized and delineated vernal pools
- Conducted amphibian egg mass counts and dip net surveys
- Managed water levels in freshwater impoundments; monitored/maintained culverts
- Collaborated with several partner organizations in efforts focused on Blanding's turtle conservation

Field Technician Assistant – San Diego State University/Clark Lab, Sunol Regional Wilderness, Alameda County, CA (May 1 – July 1 2009; 40+ hrs/wk)

- Aided in study of predator-prey interactions between rattlesnakes and ground squirrels
- Tracked daily movements of telemetered snakes and recorded behavior
- Participated in mark-recapture of squirrels, rattlesnakes, and other herpetofauna
- Utilized videography and biorobotics to study behavioral interactions

Research Intern – The Wetlands Institute/Coastal Conservation Research Program: Terrapin Conservation Project, Stone Harbor, NJ (May 1– August 31 2008; 40 hrs/wk)

- Conducted road surveys, recovered eggs from road-killed terrapins
- Monitored and cleaned eggs during incubation
- Performed PIT tag injection/identification
- Installed roadside barrier fencing and nest exclosures
- Prepared data for public presentation

Cava, Z. A. 2008. Prey preference, dietary inhibition, and feeding pattern modification in neonatal garter snakes (*Thamnophis sirtalis*). James J. Whalen Academic Symposium, Ithaca College, Ithaca NY, April 8.

CERTIFICATIONS & PERMITS HELD

- American Red Cross First Aid Training (Standard First Aid + Adult CPR/AED; February 17, 2011–2014)
- American Safety and Health Institute (ASHI) Wilderness First Aid Training (March 11, 2012–2014)
- OSHA 10-Hour Construction Safety training (July 2012)
- Fort Irwin NTC Range Support Safety Training (October 1, 2012–2013)
- USFWS Research Permits TE102235-4 and TE-030659-6 for desert tortoise
- NYSDEC Invasive Species Permit #00-15-001 for rusty crayfish
- NYSDEC License to Collect or Possess: Scientific #1446
